Achievements:

- Successfully completed PHP-Laravel internship, demonstrating proficiency in web development and backend programming.
- Received positive feedback for teamwork and contributions to project development.

CERTIFICATES

- C Programming -Indian Info Tech(21.12.2021)
- Python -The Great Learning(30.01.2022)
- Windows Apache MySQL PHP-[WAMP] - CSC computer software college (28.03.2022)
- Domestic Data Entry Operator - Skills Trainer (29.11.2022)
- Data Analyst Internship - I5 Edifie Private Limited(21.04.2023)
- PHP - Laravel Internship - FFUTUREWISE(08.03.2024)

ACADEMIC PROJECT

- **Title: PHP CRUD OPERATION**

Description: Our PHP CRUD Operations project is designed to create a dynamic and efficient web application for managing various types of data using HTML, Bootstrap, and PHP. This project involves the implementation of CRUD operations, which stands for Create, Read, Update, and Delete, to interact with and manipulate data in a user-friendly manner.

- **HTML:** Proficiency in HTML for creating the web page structure and content.
- **Bootstrap:** Knowledge of Bootstrap for enhancing the user interface and ensuring responsiveness.
- **PHP:** Strong PHP programming skills for implementing CRUD operations and managing the backend logic.
- **MYSQL, PHP My Admin:** Understanding of how to interact with databases to store and retrieve data.

Role: Involved in designing, coding, test plan preparation, and testing.

- **Title: PHP Grocery Calculator**

Description: Designed the HTML structure of the calculator, including Bootstrap input fields, buttons, and the item list. Wrote JavaScript code to handle user input, perform calculations, and update the interface.

Implemented validation for input fields. Debugged and refined the project as needed.

Role: Involved in designing, coding, test plan preparation, and testing.

DECLARATION

I here declare that the above-mentioned Information is correct up to my Knowledge and bear the responsibility for the correctness of the above-mentioned particulars
